- Crispin: 2nd week of October.
- Idared: 2nd week of October.
- Rome: 2nd week of October.
- Fuji: 2nd week of October.

SEPTEMBER FAVORITES

September is a wonderful time around the Farm and Market. The weather starts getting cooler, leaves start to change and daylight gets shorter. Best of all we start harvesting our apples. We are especially lucky this year to be even harvesting any apples because of the frost that upstate New York faced in April. We will be able to provide the Farm Market with all the apples our customers demand. Some varieties may be limited, so get your favorite kind as soon as they become available. We however lost all our Pick Your Own apples, so your family will have to enjoy other activities around the farm. If the weather cooperates with us next year, we will have Pick Your Own again.

A fun activity around the farm this year is our Corn Maze. Francisco, Manager of the farm, has worked hard

again this year to bring another great corn maze for our customers and family.

So come to Burnap's this September and enjoy fall in upstate New York!

October

Pumpkins

Pick Your Own

15th Annual Apple Tasting Tour

October 5-8. The self guided tour offers 15 Farms and Farm Markets to explore around Wayne County. For more info go to: http://www.waynecountytourism.com/documents/2012_Apple_Tasting_Tour.pdf

Pumpkin Carving Contest

Bring your own already carved pumpkin into the Farm Market Oct 26-28. Judging will be on the 28th at 3:00. More details to come-keep watching on line and at the Farm Market.

WHAT HOT AT BURNAP'S FARM MARKET THIS MONTH

Burnap's Homegrown Apples

Burnap's own homegrown apples are on the stand. Early Golds, Ginger Golds, Zestar, Sanza and Galas are the first

apples of the season. We are very lucky to offer our loyal customers our own Apples this season.

Apples **\$1.99 per lb**

Hearts Desire Gifts (Little Falls, NY)

We found a treasure in Little Falls while out for a day trip. There are five flavored sugar cookies that come with a cookie cutter that you mix together at home with a few ingredients. They also have soup mixes and we have two great flavors: Broccoli & Cheese and Potato Corn Chowder

Cookie Mix **\$6.49 each**
Soup Mix **\$6.49 each**

NY Maple Syrup (Clifton Springs)

The Everson's take pure maple sap and boil off the water every season. What is left is sweet New York Maple Syrup for you to enjoy on pancakes, ice cream or when you roast butternut squash.

32oz/64oz Bottle **\$19.99/\$43.99**

Burnap's Homegrown Mums

We have homegrown mums at the market now! The buds are getting ready to pop any day. Your gardens will glow with fall colors

Mums **\$6.99 each**
3 Mums Sale for \$19.00

Hope Mills (New Hope, NY)

The New Hope Mills produce a tasty pancake mix that can be enjoyed any time of the year, but it is especially good on cool fall mornings, after the long hot summer we had this year.

Many Varieties **\$4.59-\$5.99**

Mussie Tussie (Homegrown)

We have fresh flowers daily, but some last all year when you dry them. We have done that for you and arranged them in beautiful bouquets.

Mussie Tussie **\$3.00 each**

Corner We will have hearty Mums for sale at the market from September into October. To plant Mums in your home garden you need to find a sunny location in fertile, well-drained soil. Soil can be improved by adding compost or peat moss. Young garden mums planted in the spring should be spaced 18-24" apart. Be sure to cut and loosen the outer root system of the plant to ensure root growth. This is especially important for fall planted mums. Rainfall in many areas is sufficient to keep your garden mums growing well. Always thoroughly water-in any freshly planted garden mums. If planting in the fall, no fertilizer is needed. To encourage branching and development of compact bushy plants, it is very important to pinch back your garden mums in the spring as soon as the new growth becomes 4-6" tall.

The Motto for 2012:

“Everything will be fine in the end, if its not, its not the end!” So we will
Keep Calm and Farm On!
